Loch Clash, Loch Inchar, edition 1	5827 B	

### Chart names

We have chosen these to try to give an indication of the general area as well as the specific location. Edition numbers change every time there is any modification to the surveyed area or a significant change to the background part of the chart. Changes to the surveyed area include corrections, expansion of coverage and more detailed coverage.

One quite popular navigating app, Polar Navy, requires the first 15 characters of the chart's filename to be unique. For this reason some chart file names differ slightly from the title block name.

**Chart numbers** refer to latitude -e.g. number 5537A is to be found at 55 degrees 37 minutes north and the 'A' implies that it is the first chart we made at that latitude whilst 'B' would be the second, etc. The charts are therefore listed from south to north. Charts with a 'W' suffix are in the Outer Isles; those with a 'Y' are in the Clyde area and those with an 'XL' are at an extra-largescale with additional colouring for drying areas.

**Status** is as follows:

**N** = New for 2018

**E** = Extended coverage since 2017

**M** = Modified with relatively minor changes since 2017

**Blank** = unchanged since 2017
